

“BEST WORKPLACE FOR WOMEN 2019” AWARD

On the Occasion of International Women's Day on 8 March 2020
the Association for Women's Career Development in Hungary
has announced the “The Best Workplace for Women 2019” Competition and Prize.

Background

The Association for Women's Career Development in Hungary (AWCDH), which has received a consultative status at the UN (UN-ECOSOC -Consultative NGO Status) in 2009, has established a **Platform of knowledge transfer** with the participation of organizations interested in working **for the enhancement of women's employment and the realization of women's equality** (EU, government, economic sector, non-profit organizations, media) by the **direct involvement of Hungarian employers**. This Platform serves as basis for the enhancement of women's employment and a more characteristic representation of women's equality, thus contributing to the enlargement of the labor market and the strengthening of economic competitiveness of Hungary.

The AWCDH is presenting its projects at EU and UN level as well, as Hungarian “best practices”.

Aim of the Best Workplace for Women Award

The Prize has been established to point beyond the need for equal employment opportunities to the economic advisability and advantages of making more and more women part of the work force. The AWCDH has issued a call for participation in the survey of the “The Best Workplace for Women 2019” Award on 8th March 2019 for the 13th time as a continuation of the successful initiative launched in 2007 in honor of the “Equal Opportunities for All – European Year”.

Database regarding women's employment

Since 2007 we have carried out surveys in connection with our “Best Workplace for Women” Award among employers and employees. Our special database regarding women's employment and women's well-being is available as a representative sample based on the opinion of more than 17 thousand questionnaires.

We have developed our “Best Workplace for Women Award” with particular emphasis on

- Introduction of Hungarian “best practices” on Hungarian and international platforms
- Representation of the interest of special women's groups as employees such as:
integration of fresh graduates into the labor market,
inclusion and/or continued employment of women returning from maternity leave,
support of the careers of women over 50,
improving employment chances of women with disabilities,
improving employment chances of rural women,
women's employment in the ICT sector.
